ABOUT US

KAMA Quality Standardization Consultancy Company is a premier Saudi Arabian consulting firm specializing in consulting services and professional training for internationally accredited certification in management and quality systems.

The company provides comprehensive support to organizations across various sectors, with a clear focus on improving performance, ensuring compliance with international standards, and achieving institutional excellence.

Headquartered in Riyadh, Kingdom of Saudi Arabia, KAMA serves clients across diverse industries ranging from manufacturing and food production to healthcare, technology, and government entities.

Our expert consultants bring deep knowledge of international standards frameworks and a proven track record of guiding organizations through the full certification journey — from gap analysis and system design to final accreditation and ongoing compliance.

With a passionate commitment to excellence and a client-first approach, KAMA has rapidly established itself as a trusted partner for Saudi and regional businesses seeking to elevate their operational standards and compete confidently in both local and global markets.

OUR VISION & MISSION →

OUR VISION

To be the leading provider of internationally accredited quality solutions and consulting services, enabling organizations to achieve sustainable excellence and compete confidently in global markets.

OUR MISSION

To empower organizations through expert consulting and accredited training programs, fostering a culture of continuous improvement, compliance, and institutional excellence aligned with international best practices.

KAMA exists to transform your business's profitability with energy reductions, and that will revolutionize the way you run your buildings and your key assets

ENISCOPE

ENISCOPE

Cutting-edge energy-saving tool that makes your energy visible. It assesses real-time data across multiple buildings or facilities to give you a view of your energy use like never before.

IOT Driven Energy Monitoring & Control

Real-time visibility into energy use, operational performance, and carbon impact.

IOTech is a British energy technology company helping businesses reduce waste, improve operational performance, and make energy management practical and measurable. We combine proven IOT hardware, cloud-based software, and expert support to deliver real-time monitoring, control, and actionable insights across sites, assets, and operations.

What we do:

-  Energy monitoring
-  Real time Asset-level visibility
-  Real time Carbon emissions visibility
-  Predictive alerts and maintenance
-  Dashboard reporting and analytics

Proof points:

270+
daily data points
collected

260,000+
active energy &
IoT hubs

19,500+
projects

70+
countries

A complete solution combining:

Hardware

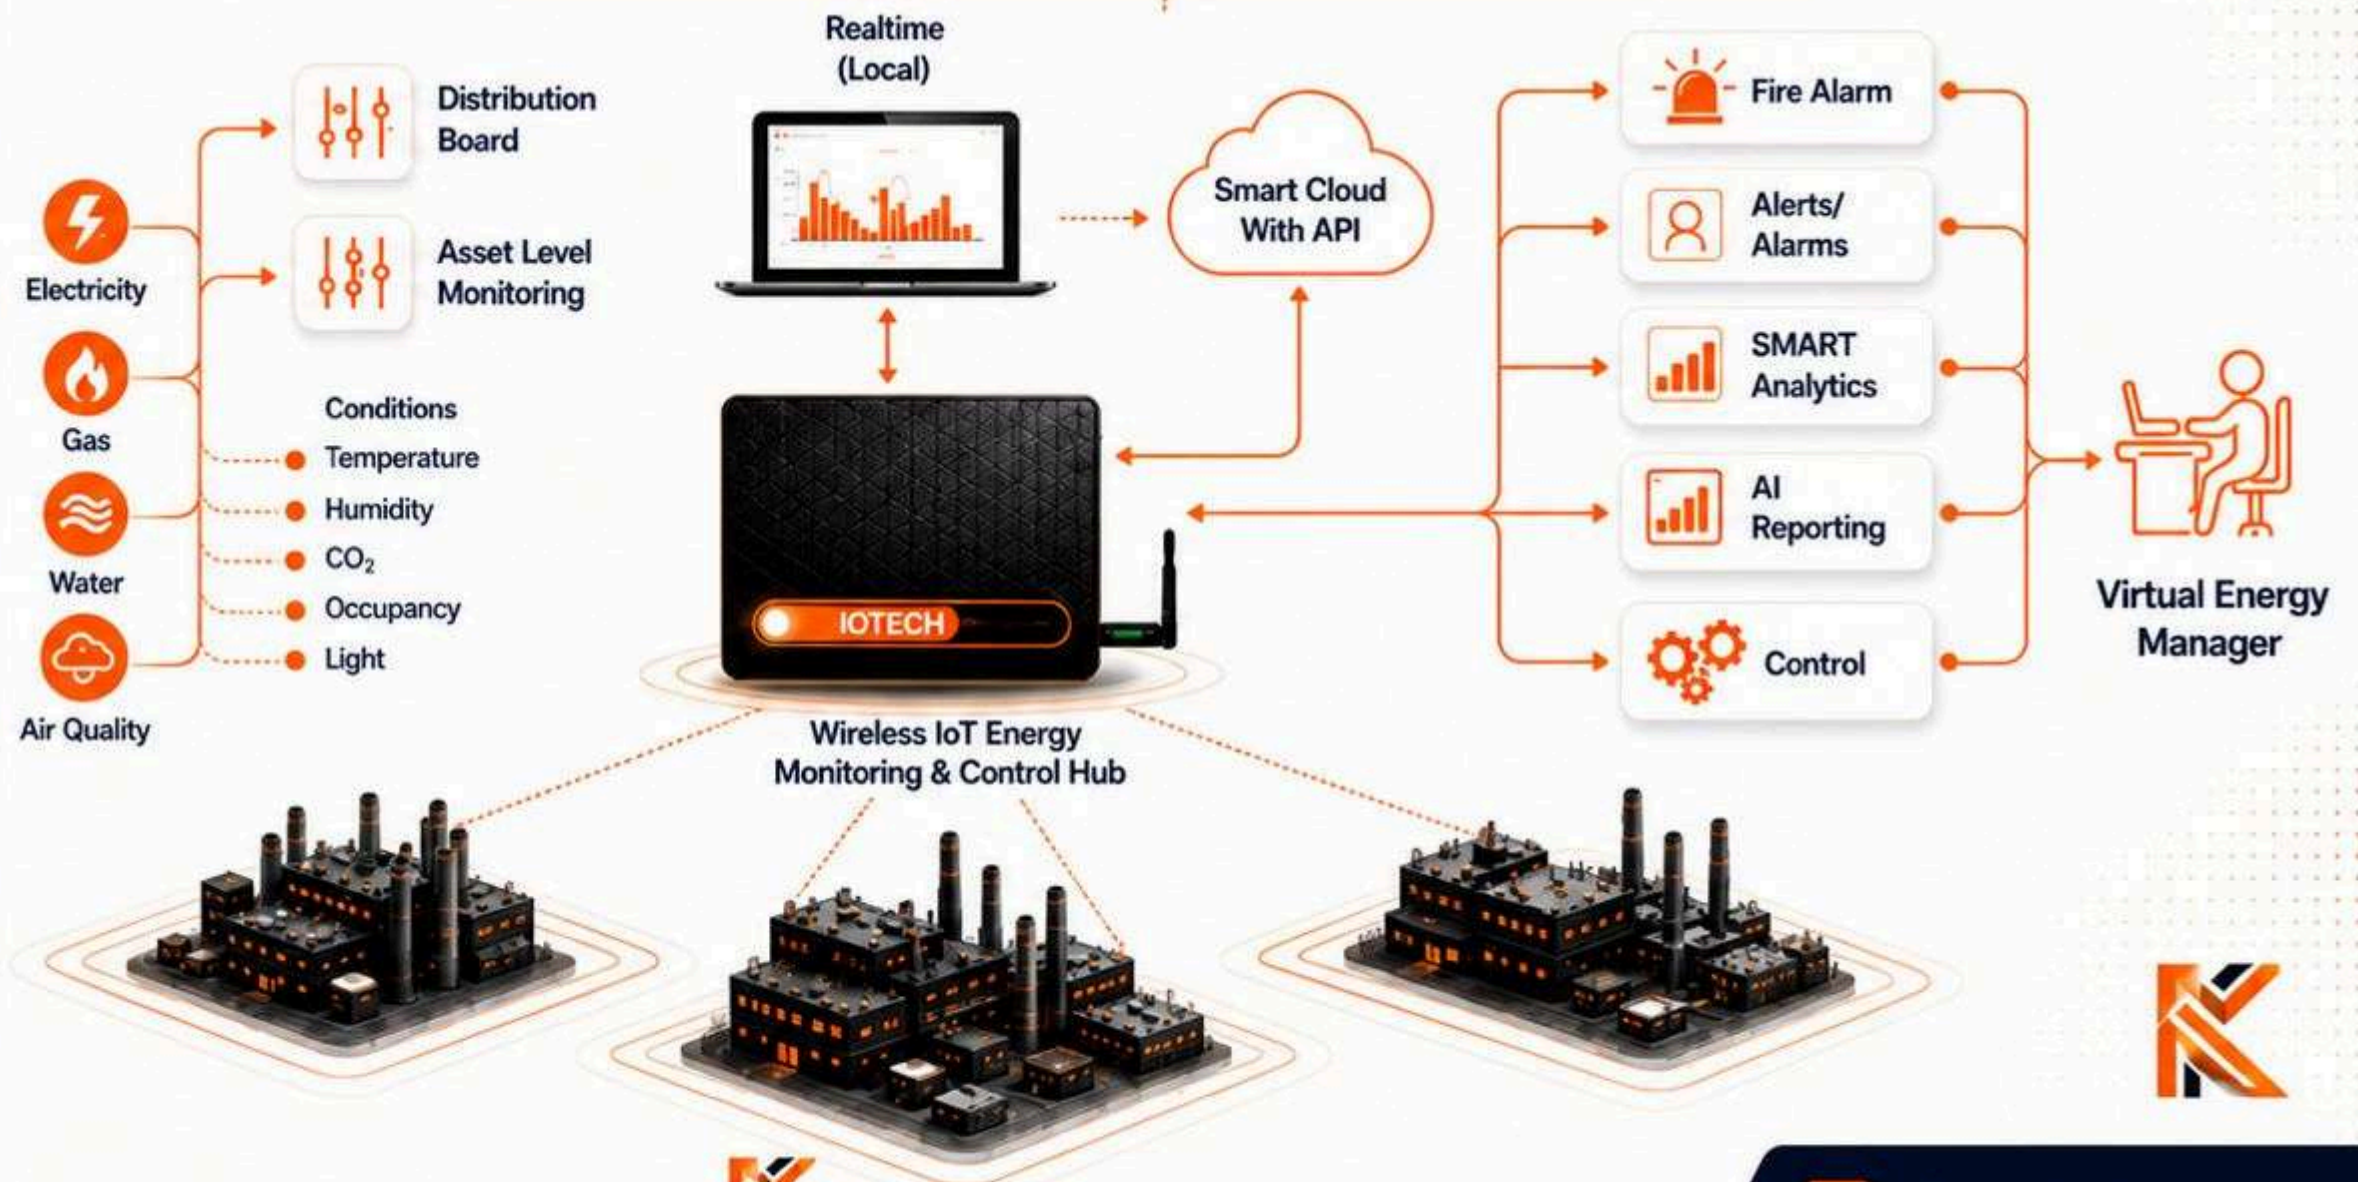

Software

Expert energy manager

Key features:

- ✔ Real-Time Energy Monitoring
- ✔ Carbon emissions visibility linked to energy usage
- ✔ Energy cost per product
- ✔ Monitor and Control Brand Standards
- ✔ Asset Tracking
- ✔ Predictive alerts & maintenance
- ✔ Detect idle running machines and waste
- ✔ Maintain machine lifespan
- ✔ Updated load schedules
- ✔ Load Distribution Monitoring
- ✔ Material Safety Monitoring
- ✔ Fire Alarm

3.3

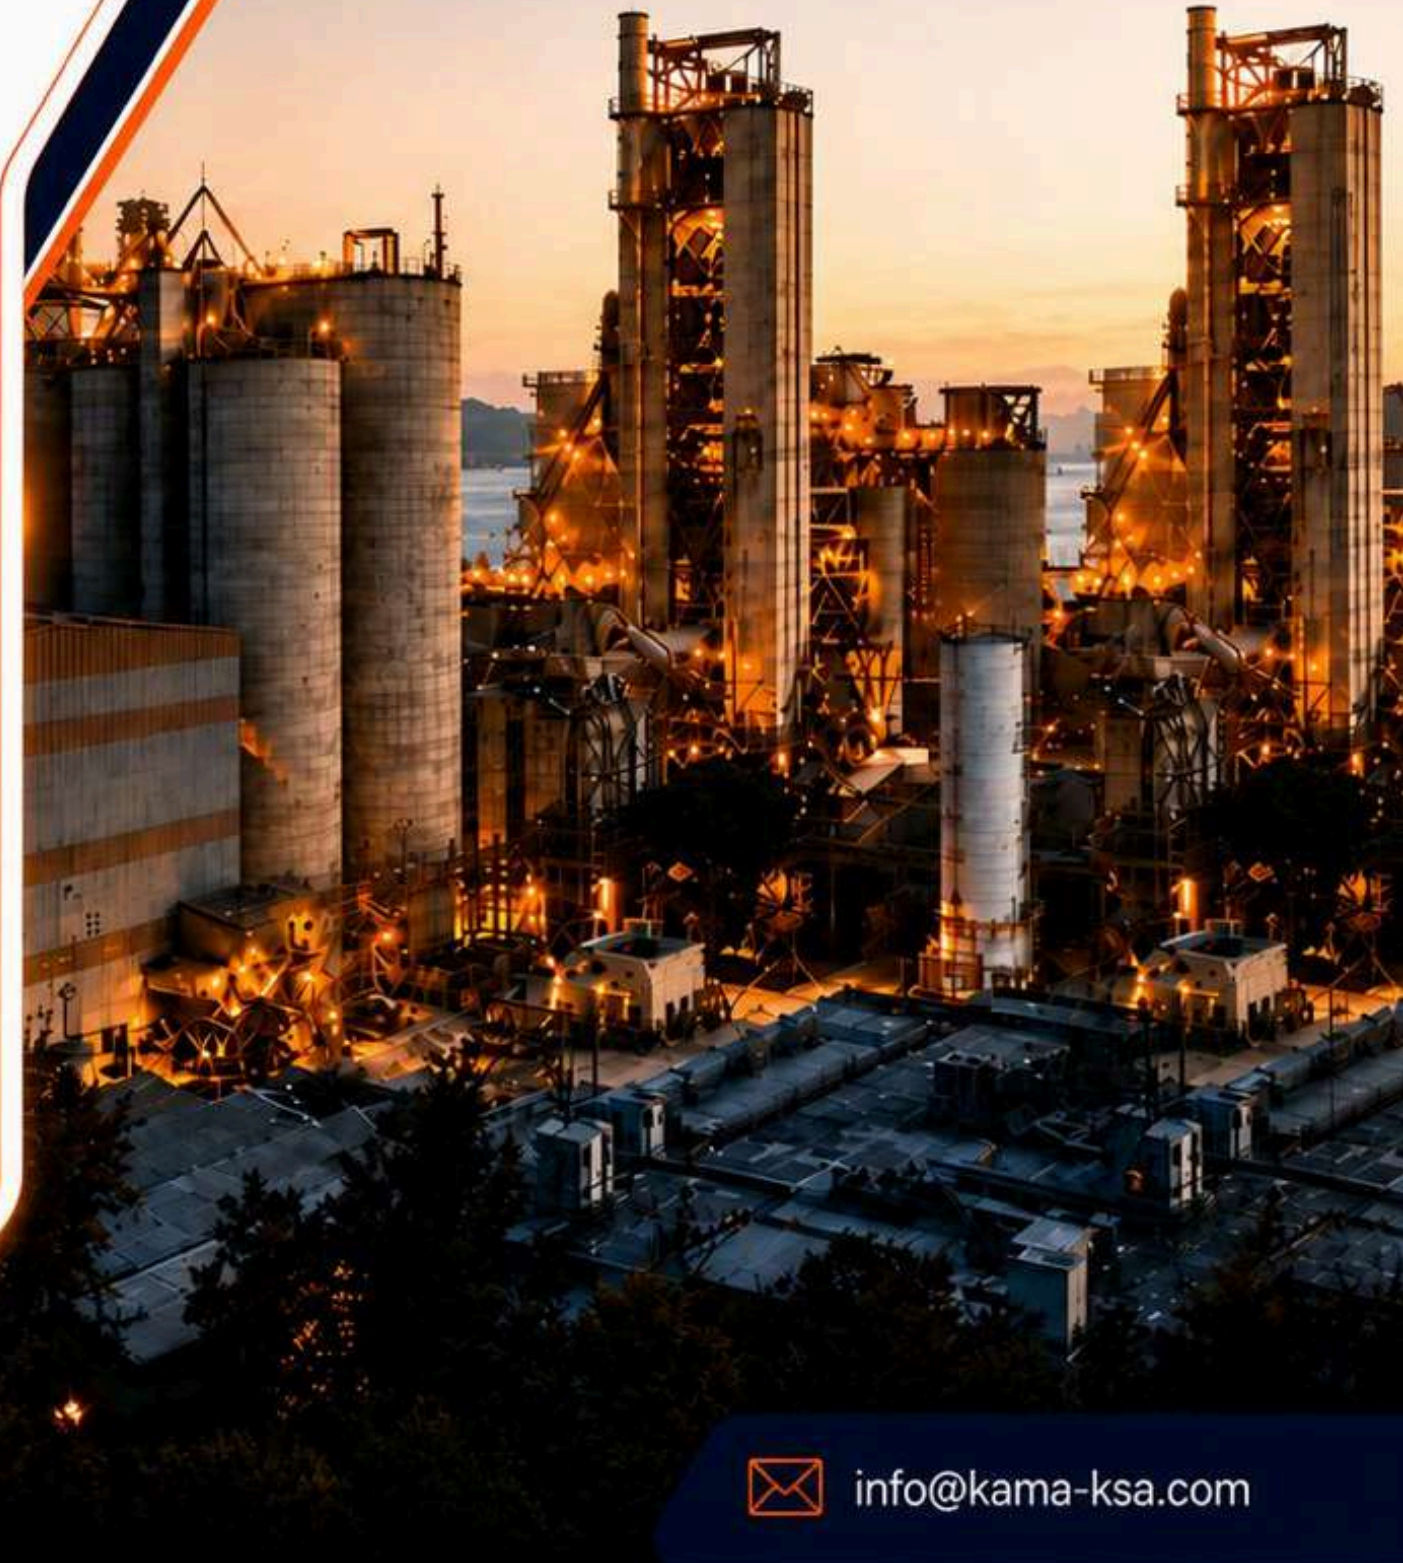

Flexible Commercial Models

Choose the model that best fits your operational and financial goals.

Feature	CapEx (Purchase)	OpEx (EmaaS*)
 Upfront Cost	One-time investment	Zero
 Ownership	Partner owns assets	IOTech owns assets
 Maintenance	Maintenance Contract	Included in service
 Upgrades	Paid when required	Included
 Monthly Fees	License	Fixed service fee
 Payback Period	\\ ~ 1.6	Immediate savings
 Cash Flow Impact	Negative then positive	Positive from first month

EmaaS*: Energy Management as a Service

4
